Citizen's Petition

Re: Greenbelt and Golf Safety

Public Safety vis a vis Errant Golf Balls

To Honorable Mayor Jim Lane, Scottsdale City Council Members

There is a clear danger to Scottsdale residents and guests that is preventable with cooperative action. Specifically, pedestrians, bicyclists, and motorists are endangered by errant golf balls hit from certain tees on several Scottsdale golf courses.

This Citizen's Petition is to request the City of Scottsdale initiate an action plan for protection in the most dangerous locations. City departments working with golf course management will place netting or fencing in some locations. Other alternatives include relocating the pathway, moving tee areas, etc.

The 4th hole on the Continental Course is one of the most egregious and is the location where both Birit Heyer and I were struck. Continental also has other danger areas which need to be addressed.

Respectfully

Paul J Breslau - 602 692-6832 - pbreslau@gmail.com
